

Genealogy Grant Program

The Indiana Genealogical Society (IGS) has established the Genealogy Grant Program to support the efforts of Indiana genealogical and historical organizations that are tax-exempt, including libraries and archives. IGS may award grants of up to \$1,000 each to applicants in these categories:

- A. **Cemetery Restoration Grant:** given to an Indiana non-profit organization for a project to restore and/or renovate a pioneer cemetery in Indiana.

- B. **Resource Development Grant:** given to an Indiana non-profit organization for a project to develop a new Indiana genealogical resource in either a printed or electronic format.

- C. **Chapter Resource Grant:** given to an Indiana non-profit organization that is a designated IGS Chapter for a project that will support the operation of that organization.

The following restrictions apply:

1. All work on the grant project must be completed within twelve months of the grant award.
2. The grantee organization must provide a written summary report to the IGS following the project completion.
3. An organization can only receive one grant from IGS per grant year, although that organization may apply for more than one grant each year.
4. Applicants must complete all parts of the Application Form. The IGS Board of Directors will evaluate the submitted applications. The Board decision on the grant awards will be final. **Note: IGS may elect not to award a grant in a particular category, if, in the opinion of the IGS Board, a suitable project has not been proposed in that category.**

The application deadline for each grant year is **December 31**. Grant approval notifications will be sent following the next IGS Board meeting. Checks will be presented to the grantees during the IGS Annual Conference each April.

Please mail completed applications to:
