14. That deponent has made due and diligent search for property of every kind, nature and description left by the decedent, and has been able to discover only that set forth in Schedules A and B, and that no information of any other property of the decedent has come to his knowledge, and that he verily believes that decedent left no property except as therein set forth. That all the sums claimed as deductions in Schedule D are lawful, just and fair, and that to the best of deponent's knowledge, information and belief the decedent made no gift, grant or conveyance of any property, real or personal, in contemplation of death, or to take effect in possession or enjoyment at or after death, except as may be specifically set forth in the appropriate sub-schedule of Schedule B.

Deponent further says that wherever in any of said sub-schedule the word "none" has been written in, or wherever such sub-schedule has been left blank, such word or omission is to be taken as equivalent to an affirmative allegation by deponent that the decedent left no property or made no transfers of the kind to which sub-schedule relates.

NOTE RELATIVE TO SUPPLEMENTAL AFFIDAVITS.

If the affiant desires so to do, he may attach in support of his affidavit the supplemental affidavit of any expert or other competent person, as to the value of any of the property listed, and in such case the form of the supplemental affidavit may be substantially as follows:

"..... of....., Indiana, being first duly sworn, on oath says: (1) that (giving a short statement of facts showing competency); (2) that he is familiar with the property hereinafter described and which is also described in the attached affidavit of the executor, admin-

istrator or heir of the above entitled estate, in Schedule..... thereof; and that from such experience or knowledge affiant says that it is his best judgment and opinion that the fair cash market value of the said property hereinafter described,

on the..... day of....., A. D....., was as set forth opposite the description thereof following:" (Signature and jurat, of course, should follow the description of the property.)

If the affiant desires to attach the supplemental affidavit of any person, regarding any other fact with which the affiant is not familiar the form of the affidavit will be governed by the facts to be related therein. Any form which clearly sets forth the facts will be sufficient.

Such a supplemental affidavit will probably be more frequently needed to set up facts relating to transfers possibly in contemplation of death, or with regard to partnership property, etc.

GENERAL INSTRUCTIONS FOR PREPARATION OF THIS SCHEDULE AND AFFIDAVIT.

1. This schedule and affidavit is prepared pursuant to Burns' R. S., §10143m, Acts 1921, which reads as follows:

"The court upon application of any interested party including the auditor of state, state board of tax commissioners, county treasurer, or upon its own motion, may appoint the county assessor of the county where said court is sitting, or the inheritance tax appraiser as the case may be, to fix the fair market value at the time of the transfer thereof of the property of persons whose estates shall be subject to the payment of any tax imposed by this act. * * * The executors, administrators or trustees of said estates shall, within thirty days of the making of said order by the court, file with said appraiser or in said court a complete schedule of all the property both real and personal of which the decedent died seized, or possessed, and all property, both real and personal, which said decedent transferred or conveyed within two years of his death, without valuable consideration, together with an itemized statement of the indebtedness of said decedent."

2. The schedule and affidavit should be so prepared that little evidence need be adduced at the hearing other than the introduction of the affidavit. A full and detailed statement of every fact which the estate desires to have considered in the assessment of the tax should be included as well as a statement of any matter concerning which the Auditor of State or his representative might properly inquire at the hearing.

3. The only way the inheritance tax law can be uniformly and equitably administered is for the tax to be assessed upon the full fair market value of the property as of the decedent's death as provided in the statute, and this will be insisted upon in each estate. *If incorrect values are given in the schedule and affidavit, the inheritance tax proceedings must necessarily be delayed until further evidence of value can be obtained and the resulting controversies determined.*

If the tax is assessed on the values as given in the affidavit and it is thereafter found that any of them were materially incorrect, a rehearing or reappraisal will be asked for by the Auditor of State.

4. No form can fit all cases and this form has been prepared to fit the ordinary case, and give such suggestions as will make schedules and affidavits as uniform as possible.

The affiant should make a clear statement of any necessary fact not indicated by the blank form. Where necessary or advisable, for clearness, the lines indicating the columns may be entirely ignored. The important thing is not the columns but a clear statement of the facts relating to the particular schedule.

ADDITIONAL BLANKS MAY BE HAD UPON APPLICATION TO THE INHERITANCE TAX DEPT.,

IS ELECTRIC COOKERY ECONOMICAL?

The number of Electric Ranges now connected in this community does indicate that Electric Cookery is Economical. The Westinghouse Automatic Range turns the current on and off. That's the reason Electric Cookery is the cheapest fuel today.

We also have a special rate for
Cooking

When you want to say something is elastic, don't compare it to rubber. Say "As elastic as the equipment in an electric light and power company."

You are continually squeezing that equipment to its smallest limits, and the next minute stretching it out to its full extent. Just consider--

Some afternoon a storm may suddenly darken the town, you and everyone else switch on lights. The great electrical machines at the power house are instantly supplying the demand.

Just one side of the service you are getting for this monthly bill of yours

DID YOU EVER STOP TO THINK THAT _____

While the banks close for a holiday,
While the stores shut up shop for Sunday,
While the grocer says "We have some ordered,"
While the merchant moves to another city,
While labor in other industries is on strike,
While the manufacturer goes out of business
While the farmer says, "I'll sell when prices go up"
The WABASH VALLEY ELECTRIC COMPANY
continues to furnish electric current for light
and power
to the public, rich and poor alike, 365 days,

QUESTION: Is the Wabash Valley Electric Company individually owned? Or is it a partnership? Or is it a corporation?

ANSWER: It is a Corporation.

QUESTION: What is a Corporation?

ANSWER: A Corporation is an artificial "person," blended of many individuals and undying in the human sense, because it is able to elect such successors to its various offices as might become necessary. The Corporation has continuity, its powers are far greater than the powers of any individual, its judgement rests upon the experience of many, and it naturally assumes control of the high scale operation of modern business.

Why pour \$125 worth of clothing down the sewer every year with your wash water?

The old fashioned, obsolete, back-breaking washboard causes this amount of waste annually, for a family of five, according to eminent authority.

A modern electric washing machine will do away with this loss and will do your wash better and more economically with an almost unbelievable saving of time, steps and labor.

SOUND UTILITY OPERATION

Today one of the fundamentals of sound utility operation is the gathering together of towns and communities into districts and groups for the purpose of cutting down operating cost by connecting individual units with highly efficient generating stations.

Mass production means lower cost in any business, ours particularly. We can, by this means, fulfill our obligation to our customers - greatest service at least cost.

Since 1913 the cost of electricity in Indiana has decreased about 13 per cent, while the cost of living in general has advanced more than 60 per cent.

The Kelvinator protects health and preserves food with a constant temperature much lower than 50°, the food danger line. It provides ice for drinks. It makes no dirt, requires no attention. It does all this electrically at low cost.

It costs less to chill a good refrigerator with Kelvinator than it does to keep it supplied with ice.

If you already own a well made refrigerator it can be easily and quickly electrified with Kelvinator.

With no obligation whatever, we will be glad to inspect your present refrigerator, explain the conveniences of Kelvinator to you, and furnish an estimate on what it will cost to place electric refrigeration in your home.

WHAT'S BACK OF YOUR BILL

Up an electric pole in a driving rain storm, - you have seen him hard at work. He and hundreds of others are making it possible for you to cook, iron, wash, and light your homes electrically.

Workers on the job day and night, in fair weather and foul, so that you can have electric service whenever you want it. This is the human side of your electric company. It is what goes on behind the bill, behind the boilers and generators. And as always, - its the men "behind the guns" who count.
