Now the said Guardian represents to the said Court that she being the Mother of the said minor heirs as well as all other heirs of the Deceased and that it is the desire of all heirs to avoid the sale of any more of the Real Estate of the Deceased for the purpose of paying the debts thereof. And it is plainly apparent now the amount hitherto sold per order of Court will not be sufficient to make full settlement of all debts and expenses without using the proceeds of the rents and profits of the farm for that purpose - but it appears that by using said rents & profits for & the present for that purpose that the Estate may be closed up the sooner and she thinks that it is the best for the interest of her wards to pursue that course and they and all other heirs being anxious to have all income of the farm applied in that way she has thus far been applying all such income to the payment of the debts of the Estate to hasten final settlement of same and hopes the Court will make no objections to her course she being willing to Risk the future satisfaction of the minor heirs with her action.
