## P R E F A C E

Business and Professional men and women find many uses for our Numerical List of Telephone Numbers.

The busy man comes to his desk and finds a notation to call a certain telephone number. The first question in his mind is, "Who is it?" In a moment he can locate the number in our List. Thus he will know with whom he is to speak before he calls and not need to call the number and ask, "Did someone there want to talk with me?"

**DONT CALL BLIND NUMBERS! KNOW!**

Our Service has proven a great help to people in all kinds of work and all lines of business: Real estate Dealers; Salesmen for automobiles, accessories, equipment, supplies; Repairmen; Bankers; Lawyers; Doctors; Wholesale and Retail Stores; Public Utilities; County and City Officers; Undertakers; Cleaners; Second Hand Dealers; Plumbers; Manufacturers; Insurance Agents; Chattel Loans; Filling Stations; Coal Dealers; Grocers; Beauty Shops; Contractors; etc.
