Midwestern Roots Con 2022

Join us for three days of learning, in-person networking, and fun around discovering and sharing about the past. Exploring how immigration and migration has impacted the story of the Midwest, we'll dive into how food, music, fine art, and clothing can be pathways to the movements of people across time. With different session formats and lengths, storytellers with different backgrounds and experiences, an invigorated vendor hall, and a thoughtful thematic menu – we promise you this is a conference you do not want to miss.

Featured Storytellers

Katrina Mitten is a citizen of the Miami Tribe of Oklahoma, and is an award-winning artist who has been beading for over 45 years. Katrina has practiced traditional Great Lakes embroidery style native beadwork through study of family heirlooms, museum collections and practice. The imagery she creates is inspired by the world around her. Her works have been acquired by the Miami Tribe, national museums and private collectors. Illustrating the value she places on education, Katrina has been a corporate lecturer, contributed to elementary, secondary, and university level educational programs, and featured in documentary films.

Tim Pinnick is an independent scholar, lecturer, author and entrepreneur highlighting the value of researching migrations, newspapers, church histories, and different industries and social organizations as a valuable tool in storytelling.

Curt B. Witcher is the Senior Manager for Special Collections at the world-famous Genealogy Center of the Allen County Public Library in Fort Wayne, Indiana. Curt is a visionary in family history and passionate about connecting everyone to their own history and sharing those stories for the future.

Naming Traditions Across Multiple Cultures

We've all seen them, be it on name tags, in the newspaper, or in the background of the local coffee shop as our friendly neighborhood barista struggles to sound-out a strange new name written on the cup. It doesn't really feel like there are naming schemes these days so much as trends. Adding on a sleek, modern -ly to just about any syllable fashions a new name. But what about our ancestors?

Anyone who has spent any time at all pouring over a family tree can attest to seeing the same handful of names over and over again. James, George, Mary, Elizabeth... At first blush, it would be all too easy to assume that these names were recycled simply because there wasn't the huge, creative naming pool that we take for granted today, but, as it turns out, the great people over at Familytreemagazine.com have found a method to the repetitive madness in the form of cultural-significant naming schemes.

For example, this scheme was common in England, especially in the 18th and 19th centuries:

- the first son was named after the father's father
- the second son, after the mother's father
- the third son, after the father
- the fourth son, after the father's eldest brother
- the first daughter, after the mother's mother
- the second daughter, after the father's mother
- the third daughter, after the mother
- the fourth daughter, after the mother's eldest sister

In families where this pattern would lead to duplicate names—both grandparents were named Robert, for example—the parents might skip to the next in line. In this case, the second son would be named after the father.

But wait, there's more! This article outlines so many different naming schemes. From French, Canadian, Italian, Greek, Jewish, and even Scandinavian, the good people at Familytreemagazine.com have done the work to aid you in your genealogical naming scheme woes.

According to Familytreemagazine.com, "the patronymic surname system common throughout Scandinavia into the late 19th and early 20th century solves one genealogy puzzle while creating another: There's seldom any question about the first name of a person's father, because children took their surnames from their father's first name. In Sweden, Magnus' son's last name became Magnusson; his daughter's would be Magnusdotter. In Denmark and Norway, if Hans Pedersen had a son named Lars, the boy would be known as Lars Hansen (or Hansøn) and his sister Anna would be Anna Hansdatter. Urban Danes began to adopt permanent surnames about 1850, while rural areas kept patronymics until about 1875. Permanent surnames didn't become official in Sweden until 1901 and Norway until 1923. Iceland still uses patronymics. Changing surnames create their own challenges, but at least you know the father's given name."

Children's given names were generally assigned as follows:

- the first son was named after the father's father
- the second son, after the mother's father
- the third son, after the father (often resulting in a doubled name, as in Haakon Haakonson, due to patronymics)
- the first daughter, after the mother's mother
- the second daughter, after the father's mother

- the third daughter, after the mother

Subsequent names honored the parents' siblings. This pattern wasn't a hard rule, so there can be exceptions, cautions Elisabeth Thorsell, editor of the [Swedish-American Genealogist](#). She adds: "If the children in the family do not seem to follow this rule, it might be that you have not found all the children, like babies who died soon after birth. If a spouse died, the next child of the right sex in the next marriage was often named for the deceased spouse."

Now that definitely puts some viking names into better context! This is a great resource for those researching ancestors from different countries. Finding cultural naming schemes can shed some light on those family trees that seem burdened with four Elizabeth's or ten George's. Take a gander at the other naming schemes popular in different countries [here](#).

3 Reasons to Visit the Allen County Public Library Genealogy Center in Fort Wayne, Indiana

I think it's safe to say that spring has sprung and summer is well on its way to taking the nation by storm. With the heat comes travel, and if you're looking for your next vacation destination, look no further than Fort Wayne, IN, home to the Allen County Public Library and its enormous Genealogy Center!

Now, I have to admit something to you all: I'm very biased when it comes to this topic. I've lived in Fort Wayne for nearly a decade at this point, and I also happen to work at the ACPL (shoutout to Circ!). But honestly, maybe that gives me a certain ethos when I say that if you've never been, I think you're missing out! There are so many unique things in this city that make it a great place to call home, let alone visit, and if you've got family history needs, there truly is no better place to go. But hey, don't take my word for it. Familytreemagazine.com compiled a great list of reasons why you should spend your next vacation in Fort Wayne.

1. Research librarians with real genealogy expertise
2. Extensive hands-on genealogy records that you may not find anywhere else
3. Vibrant surroundings of Fort Wayne make the trip fun

They state that, "the 42,000-square-foot Genealogy Center's holdings include 20 database subscriptions with free access, 1.2 million physical items, 68,000 family histories and 5 million digital assets. Its collections and databases include materials from throughout the United States, Canada, the British Isles and Europe, as well as African American and Native American/First Nation records."

No matter how far away home is for you, there's guaranteed to be something in the stacks that'll help you with your research, and I can personally attest to the skill of the staff you'll have helping you every step of the way.

So, consider stopping by for a visit! Grab a coney dog at famous Coney Island down the street, catch a Tin Caps game in nearby Parkview Field, and uncover a new chapter in your family history adventure.

Historic English Dialect Recordings Archive Digitized for the Public

If you are feeling a bit peckish do you enjoy a bit of scran or docky? Perhaps if you have a sweet tooth then a bag of cooshies or jumbles might hit the spot.

If you're like me and that all sounds like a bunch of hot nonsense, perhaps you could benefit from the newly released research conducted by the University of Leeds in England. According to Eastman's, "the University of Leeds has been home to an extensive library of English dialects" since the 1950s – and now the historic archive is accessible to the public. You can learn how your ancestors sounded when they spoke.

During the 1950s and 60s, fieldworkers from the University traveled across the country to record the language and lifestyles of speakers across England, known as the Survey of English Dialects. It remains the most famous and complete survey of dialects in England and the findings have been preserved in the University's Leeds Archive of Vernacular Culture, a unique and nationally important multi-media archive.

Now, the recordings can be heard by the public with the launch of the University's Dialect and Heritage 'In Your Words' Project, led by the School of English and supported by the National Lottery Heritage Fund.

You can read more about this fantastic research and how to access it on the University of Leeds' website

Attention: Volunteers Needed!

We here at the IGS have received word that Janet Frey, FamilySearch.org Field Support for several states including Indiana, needs your help to complete an important digitization project! She is in dire need of document preparation help in Sullivan, Boone, Miami, Switzerland and a few other areas working with various records at county courthouses.

IGS and FamilySearch.org have partnered to digitize marriage and other courthouse records throughout the state of Indiana. FamilySearch is providing the technology and technicians to do the actual scanning of the records using contractors and missionaries. Volunteers are needed locally to prepare the documents for scanning. Included in this project are scanning of Probate Packets - the paper documents that are created in settling an estate. These documents are a treasure trove of local history - receipts from long gone businesses, lists of items owned by the deceased, beneficiaries of the estate, and even neighbors who purchased items from the estate sale.

For over 100 years, these important documents have been folded and placed in a packet envelope. In order to scan fragile documents, they must be unfolded, flattened, and placed in a folder. After scanning, they may, depending on the decisions of the local county clerk, need to be refolded and replaced in the estate packet envelope. In order to keep the project moving volunteers are need to prepare these documents and keep ahead of the contractors doing the scanning. If the contractors can not keep scanning, they will be moved from that county and the project will stall.

From Rhonda Stoffer, Past IGS President, Grant County Genealogist:

"I have personally been working on the Grant county digitization project for FamilySearch since October of 2021. There are 7 of us who are unfolding Probate Packets for scanning. I can honestly say that none of us have found the experience boring. We have completed 900 packets and have found some amazing gems in the documents. As the head of the Indiana Room at Marion Public Library, my staff and I are always looking for information on previously unknown people from the area. Using a line from a woman's estate paper that said she was due a payment from her husband's military pension, we were able to determine that her husband was a Black War of 1812 veteran that was previously unknown to us, and is buried in the county. In another file, a local man had died during the Civil War in Andersonville Prison Camp. Years after the war, several men who had been in the camp with him traveled to Grant county to tell the court what his final wishes were for his estate.

Without this project these events would remain lost to history. Please consider helping with this worthwhile project. The goal is to complete each of the 92 counties in Indiana. Currently, about 18 counties have committed to the project which has no cost to the county for the digitization. Please contact your local county clerk to encourage them to take advantage of this wonderful project that will preserve these important records for years to come. After scanning, all of these records will be available for everyone on FamilySearch.org, for free!"

Doesn't that sound pretty cool? The group managing the project will be asked to pack up the cameras and return them if new help isn't found soon. Volunteers won't be digitizing the material but prepping documents for digitization by carefully unfolding them, putting them in folders, and returning them to storage once they've been successfully digitized. The work needs to be performed in a timely manner and the documents themselves need to be handled delicately, so if you've got some time and have a gentle touch, this could be a great opportunity to help out your local courthouse!

If you or anyone you know are interested in a really hands on experience with the oldest records in your state please contact Janet Frey at 615-992-5829 or freyjl@familysearch.org.

COUNTY ROUNDUP OF EVENTS

Northeast

>> Allen County *submitted my Margery Graham, Allen Co. ICG:*

The Society holds regular monthly programs on the second Wednesday of each month (except July and August), at 7:00 PM. To expand our audience and bring the amazing resources of the Society to a wider audience, our 2021-2022 season of programs will continue as virtual programs on the Zoom platform. Registration for the virtual programs will be on the ACGSI website. For more information and current program offerings, please see www.acgsi.org, our blog at acgsi.wordpress.com, or visit us on Facebook, Instagram, Pinterest or Twitter. ACGSI members will be emailed an invitation to each Free Educational Program. Membership in the Society is open to all. Any changes to the meeting platform will be announced on our social media sites. All times listed below are Eastern Time.

- June 8, 2022. Reservations are required for our annual banquet. Curt Witcher will present An Update on What's New in the Genealogy Center.

From the Genealogy Center

To learn more or register for the programs, visit <https://genealogycenter.org>, call 260-421-1225, or email Genealogy@ACPL.Info. For each of the below programs, you will need to pre-register:

Thursday, April 21th at 6:30 - 7:30 PM (virtual): "Origin: How Ancient DNA Informs Modern Genealogy" with Dr. Jennifer Raff. WHO were the first people to reach the Americas? When did they get there, and how? These are among the most mysterious questions in prehistory, and have long been studied using traditional archaeology: bones, artefacts and so on. In recent years, however, the field has been revolutionised by genetic data. DNA from living people and preserved remains has both enhanced and transformed our understanding of the continents' First Peoples (those who were on the continent before Europeans arrived) and how they got there.

- Monday, June 6th from 7:00 - 8:00 PM at Aboite Branch - Meeting Room. "Crossing the Ocean - Finding Your Immigrant Ancestor"
- Monday, July 18th from 7:00 - 8:00 PM at Grabill Branch - Meeting Room. "Crossing the Ocean - Finding Your Immigrant Ancestor"
- Wednesday, July 20th from 3:00 - 4:00 PM at Monroeville Branch - Meeting Room. "Crossing the Ocean - Finding Your Immigrant Ancestor"
- Recorded Genealogy Center programs can be found on the Genealogy Center section of the [Library's YouTube channel](#).

From the Northeast Indiana Jewish Genealogy Society

We hold quarterly, public programs to discuss and promote Jewish genealogy, as well as several more intimate events just for our members. Our purpose is to present educational programs relevant to Jewish genealogy, to support our members in their pursuit of their family histories, to collaborate with other organizations on areas of Jewish genealogical interests, and to protect, preserve and share Jewish genealogical records from the region of Northeast Indiana. - Saturday June 18, 2022, 10:00 AM Central Time: "No Easy Button: Using Immersion Genealogy to Understand Your Ancestors" with Lisa Alzo. Family history is so much more than just names, dates, and places, or boxes, lines, and charts. For 21st century genealogists, it is easy to limit our research to the documents or other facts we find online, or to what others tell us to be true. Learn how to take your research a step further to understand your ancestors' lives through "immersion genealogy"—the process of discovering where they lived, worked, and worshiped, and experiencing those customs and traditions they passed down through the generations. Key resources, methodology, and tips for reaching out to relatives and repositories, and how to make the most out of a trip to your ancestor's hometown (whether in North America or across the pond) will be discussed.
- Saturday July 16, 2022, 10:00 AM Central Time: "Sharing Session" Share your genealogy projects, discoveries or stories with others online.
- Saturday August 20, 2022, 10:00 AM: "Beginner's Guide to French-Canadian Genealogy" Presented by Judy Nimer Muhn

>> Pulaski County *submitted by Janet Onken, Pulaski Co. ICG:*

The Pulaski County Genealogy Society meets the 1st Thursday of each month at the Historical Society Museum, 500 S. Monticello St. (US35) in Winamac at 5 PM. The society members continue to add updates to the county cemeteries and/or veteran's burials spreadsheets. Pulaski County contacts: Mary at geniehistory2021@gmail.com or Ronda at ronda.loehmer@gmail.com

At the Winamac library in the genealogy room, researchers can now use the Scan-pro 3000 to read microfilm and to access the internet. As yet, there are no public computers or a copy machine handy for researchers in the room. You are welcome to bring your own laptop, I-Pad or other electronic device. Resources having to do with Cass, White and Jasper are among the counties that have been added to the resources available in the genealogy room. Winamac library hours: Mon-Fri 10:00 AM - 6:00 PM and Sat. 10:00 AM - 1:00 PM.

- Saturday, June 11th at 10 to 11:15 AM (hybrid): "The White River and its Historic Floods" Explore the flood zones of Hamilton County and the White River with county historian David Heighway. Learn about the effects they had on our ancestors, the environment, and how we have learned from the past to prevent them in the future. Bring your waterway questions!
- Tuesday, June 14th from 6:30 to 8 PM (virtual): "LGBTQ Genealogy with Stewart Traiman" Lesbian, Gay, Bisexual, Trans and Queer folk have always been a part of our history and family stories. The confirmed bachelor or spinster aunt in our trees may not have been single. Perhaps they did have partners but there is no legal documentation or family acknowledgement. This class will explore census, newspapers, obituaries, military records, photographs, phone books and archives for clues on our ancestor's sexuality. We will also explore LGBTQ History and many individual stories giving context to the available records. Discovering our LGBTQ ancestor's stories will enrich our entire family history.
- Wednesday, June 22 from 6:30 to 7:30 PM (virtual): "Beginning Native American/First Nations Genealogy" This lecture provides an overview for the person just getting started doing Native

American family history research. Emphasis is placed on paying close attention to historical details, the major differences between Euro-American and Native American societies, and conducting research within the proper historical and geographic contexts. Major records groups are defined with an extensive bibliography provided. Some consequential first steps in engaging in any type of Native American research are enumerated and discussed. Curt Witcher, Director of Special Collections at the Allen County Public Library, is the presenter for this lecture.

>> Monroe County *submitted by Penny Mathiesen, South Central District:*

The Monroe County History Center Research Library has added a new resource, *Mapping Monroe County, Indiana: An Annotated Bibliography, 1815–1941* (2021), compiled by David Paul Nord, to the

collection. This work is an annotated and illustrated bibliography of historic maps of the county, the city of Bloomington, and the Indiana University campus, from 1815 through 1941. It lists items in dozens of map collections around the state and country. The book is available in the library and on sale in the Museum Store for \$15.00. For more information, send email to: library@monroehistory.org or call (812) 332-2517. Please visit our website at: www.monroehistory.org

>> Scott County *submitted by Jeannie Noe Carlisle, Secretary, SCGSI:*

Our first meeting of the year is Thursday, April 7, 6:00 PM with visiting and refreshments. 6:30 PM Meeting Begins. Program will be to "Show Off" the Research Rooms. We hope the Scott County Room will be much easier to navigate, easier to return material plus all research to be much faster. We will be working to improve all of the time. We hope you can attend April 7th. Masks are welcome, whatever you choose to do.

The Research Rooms are OPEN now on Tuesday and Wednesday 10-4; Saturdays 10-1. In May, plans to open an additional day, Fridays 10-4. Daily fee \$5.00 for non-members and paid up members (\$12.00 annually), free to research. Using Digital equipment we have to charge \$5.00 per day due to our expenses of rent. We pay the Museum \$350 per month to rent the two research rooms. We could use another volunteer on Thursdays and/or someone to substitute when a regular volunteer needs to have a day off. Thank you for considering.

>> Greene County *submitted by Diane Anderson, Greene Co. ICG:*

To celebrate the release of the 1950 U.S. census, I will be teaching two genealogy classes at two of our Greene County libraries. The first one will be on Tuesday, April 26th at 6-7 PM at the Bloomfield Public Library. The second one will be Monday, May 9th at 5:30-6:30 PM at the Linton Public Library. They will be open to all Greene County residents. I also plan on having two more genealogy classes in October, during Family History Month.

Also, a helpful tip for anyone that uses social media... Genealogy pages (for family surnames, counties, towns, etc.) that you find on Facebook can be very useful. In my own research, I have found an unknown 3rd cousin by asking a question on a county (NY) genealogy page. In October of 2020, I started a FB page for Greene County. Our FB group [Greene County Genealogy (Indiana)] now has over 200 members, and I am constantly amazed at how much they help each other with their research. Also, many of the members have discovered they are related to each other!!

>> Sullivan County *submitted by Donna Adams, Sullivan Co. ICG:*

The Sullivan County Public Library Genealogy/Local History Dept. will do research in response to personal and written inquiries. Only a limited amount of time may be devoted to each request. Letter, email & phone requests will be answered as soon as time allows depending on other staff demands and the number of inquiries received.

Staff will do research in indexed, printed sources and will only search materials dealing with Sullivan and surrounding counties. If a request includes sources beyond this geographic area, staff may recommend other libraries to contact.

Requests should be in the form of one or two briefly stated questions and should include specific names and dates to search, or a range of dates within a ten-year period (example 1850 - 1860) Your full name & mailing address must be included with your query.

The Genealogy/Local History Dept. charges \$3.00 plus postage per query. This includes up to 12 copies of material. After the 12 copies the charges are per page .15 for microfilm and .10 for Xerox copies. Checks & or money orders should be made out to Sullivan County Public Library/Genealogy/Local History Department. For further assistance please contact:

Call for IGS Journal, Newsletter, and Social Media Submissions

IGS invites your contributions to all our publication outlets.

The *Indiana Genealogist* is a quarterly online journal that publishes abstracts or transcriptions of genealogical records, articles on Indiana-related resources, and historical studies of people or groups related to Indiana genealogy. The Autumn Journal topic is Religions of Hoosiers. What religions were brought here, and by whom? Tell us what religions were active in the state and what faith your ancestor belonged to. Pass along any information about repositories, collections and archives where this information is held. Any info and photos on camp meetings and revivals held in the state are welcome too! Share their stories and photos with us by August 1, 2022, to be included in this issue

If you have an article or something interesting to share, please contact the **Editor: Joy Neighbors.**

The *IGS Newsletter* is a bimonthly online publication that includes upcoming events, forthcoming publications, research tips, resources of interest to Indiana genealogists, and queries.
Editor: Jennifer Alford.

The IGS has several social media outlets that publish announcements, time-sensitive information, and other items of genealogical interest. **Social Media Director: Jon-Marie Pearson.**

Submission guidelines and more information on all these publications can be found on the IGS web site under "Publications."
