### **Specifications**

Any Indiana Genealogical Society member who is a direct descendant of any person who lived within the present boundaries of the State of Indiana on or before the day of statehood, December 11, 1816, or served in the military forces in the Indiana Territory at the Battle of Tippecanoe, or served in the military forces in the Indiana Territory during the War of 1812, may apply for membership in the Territorial Guard Society of Indiana.

Interested members must complete an approved TGSi application and must provide copies of documentation proving the bloodline ancestor of each generation. The application and document copies become the property of IGS.

A non-refundable \$20 application fee must accompany the application form. IGS must receive applications not later than December 31 of each year in order for potential members to be approved for induction during the following annual conference.

The TGSi Evaluation Committee must approve the application and the IGS Board of Directors must concur. Standard genealogical rules of evidence will be observed. The TGSi Evaluation Committee will hold applications requiring additional proof until the applicant provides the documentation required.

### **Rules of Evidence**

1. Applicants must prove Indiana ancestral residence on or before December 11, 1816, or prove the military service specified above.

2. The nature and extent of the evidence submitted must be sufficient to show that the applicant is a direct descendant of the named person residing in Indiana. Documentation must differentiate between any two persons of the same name.

3. Each document submitted, primary or secondary, must include a full citation with volume and page number [As: Marriage Records, Allen County, Indiana, Vol. 1, Page 33] Copies of vital records must be from the appropriate government agency.

4. In the absence of a vital record, two secondary proofs are required, as a newspaper entry, contemporary county history, or family Bible record.

5. Proof of any military service must be from official sources, as enlistment, discharge, pension, or other government documents.

6. Documents, either alone or with other acceptable materials, must actually state the fact to be proved. Assumed relationships, unnamed individuals, and generic terms are not acceptable as proof.

7. Female ancestors must be identified by their maiden names, and, if married, their marriages proved. Each legal name change must be documented.

8. Tombstone photographs may be acceptable if the inscription is legible and the stone is contemporary with the inscription. Cemetery burial records and funeral home records are acceptable.

9. Bible records must include a photocopy of the title page, the publication date, and the current owner's name and address.

10. Secondary evidence used, such as census pages, newspaper articles, county histories, must include full citations. These materials must be used in supporting roles only and must be combined in ways to convincingly support the relationship being documented.

11. Documents presented in a foreign language must be accompanied by a full translation, certified as true by an impartial translator.

12. Old letters, diaries, or family records can only be accepted as documentation for the facts the writer could know first hand. The writer must be sufficiently identified.

13. Printed or manuscript genealogies, family group sheets and charts, personal pedigree charts, family reunion records and similar compiled materials will not be considered as documentation.

14. Approved lineage applications from the Sons or Daughters of the American Revolution, the Society of Indiana Pioneers, or the Society of Civil War Families of Indiana will be accepted as proof of Indiana residence. Applicants must prove any Indiana generations not listed on the lineage form.

14. The judgment of the TGSi Evaluation Committee as regards sufficient and proper evidence will be final. The Committee will notify applicants regarding which relationships are insufficiently proven, and applicants will be allowed to correct errors and submit additional required documentation.
